1. Amendment received on 10/14/04 has been entered in this application.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 22-28 are rejected under 35 U.S.C. 102(e) as being anticipated by Freathy et al (Pat. No. 6,774,797).

Freathy et al teach an apparatus for time maintenance in a satellite positioning system receiver to receive data from a plurality of satellites including a store (col 6, lines 9-11; col 7, lines 17-20; abstract, lines 8-9) for maintaining timing data derived from almanac data, and a processor for deriving a first timing information portion using acquired communication signals (col 4, lines 62-64) and a second timing information portion using the stored timing data (col 7, lines 17-25) and for combining the first and second portions to determine real time estimate (abstract).

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3662

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
